THE VIOLIN TRAVELS

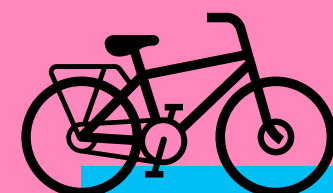

THE STORY OF THE VIOLIN TRAVELS...

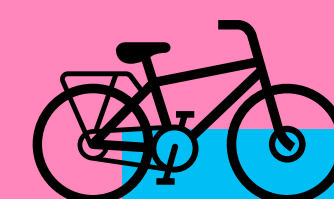

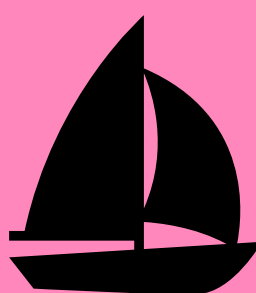

#TheViolinTravels around the world,
to explore new ideas,
so as to uplift our spirits
to bring joy, happiness and love
to the people around the world.

The idea was first sparked in 2010 when
the founder dreamt of cycling round the
world with her violin behind her back,

to make music with the local community
and to spread laughter and
optimism to everyone.

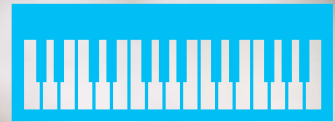

More than ten years later,
the idea was born.

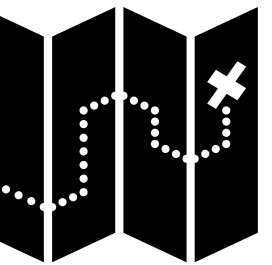

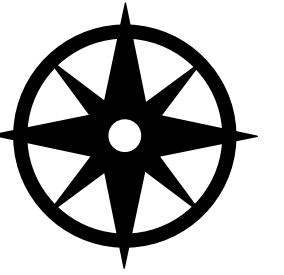

Together with Chap Chee on the
percussion & Mabel Lim on the piano,
the music pieces are melodious, catchy,
and can sometimes tickle some smiles
with the variation of timbre, texture and
tone of the instruments.
